## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 68 and 69 are rejected under 35 U.S.C. 102(b) as being anticipated by the AY and AZ Kutkevicius et al. articles cited on the Form PTO-1449. See also the enclosed STN/CAS printouts corresponding thereto. These references disclose the present compounds where R<sub>1</sub> is CH<sub>2</sub>Cl and one of the phenyl ring substituents is NH<sub>2</sub> or methyl. It is not clear from the record whether the proviso with respect to the Cahn-Ingold-Prelog stereochemical system differentiates the present structures. No rejection under Section 103 is being made since no utility is given for the prior art compounds and thus no motivation exists to modify their structures.

## Allowable Subject Matter

- 3. Claims 70-76 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims, or upon allowance of a claim generic thereto.
- 4. Claims 76-98 are allowed.
